APPLIANCE INSTALLER

PLEASE NOTE:

(FOR OUTSIDE EXHAUST AIR VENTING OPTION ON MDL WVG-136,
WVF-886, WV-4HS, WV-4HF, WV-4HC UNITS)

THIS VENTLESS HOOD IS FACTORY SHIPPED WITH A 6" DIAMETER OUTSIDE VENT ADAPTER FOR VENTING EXHAUST AIR OUTDOORS THROUGH A WALL OR CEILING ROOF WHEN EXCESSIVE ROOM COOKING ODORS BUILD UP.

GRAINGER WALL FAN, STOCK NUMBER 4C707 PURCHASED LOCALLY, CAN ALSO BE USED TO REMOVE ROOM ODOR WHEN THIS VENT ADAPTER IS NOT USED. IT IS THE DUCT INSTALLER'S RESPONSIBILITY TO ALWAYS COMPLY WITH LOCAL CODES.

IMPROPER OUTSIDE VENTING WILL SHORTEN APPLIANCE HOOD FILTER LIFE! THE MECHANICAL CONTRACTOR INSTALLING THE 6" DIAMETER VENT DUCT SHOULD BE AWARE OF EXTERIOR PREVAILING WIND DIRECTIONS AND NOT EXPOSE THE OPEN 6" DIAMETER TO HEAD WINDS.

DO NOT USE AN EXTERIOR VENT CAP, WHICH PROVIDES OVER .10 INCH OF STATIC PRESSURE AIR FLOW RESISTANCE AT 400 C.F.M.

TO KEEP FROM REDUCING FILTER LIFE; ALWAYS LIMIT THE OVERALL 6" DIAMETER DUCT LENGTH AND NUMBER OF BENDS TO A MINIMUM. NEVER REDUCE THE DUCT DIAMETER TO LESS THAN 6"!
